Historic Plaque Program

The City of Hickory Historic Preservation Commission and the Hickory Landmarks Society are partnering to improve and expand our historic plaque program for all contributing properties in Hickory’s Claremont, Kenworth, and Oakwood National Register Historic Districts.

The program seeks to build on the previous success of the last historic plaque program that took place in the late 1990s. Since then, approximately 150 properties have been added to both the Claremont and Kenworth Historic Districts. All contributing properties in National Register Historic Districts are eligible to order a plaque.

The City of Hickory and the Hickory Landmarks society have partnered together to offer the plaques at a discounted rate of \$50 per plaque. This is 50 percent of the total cost for a high quality cast aluminum plaque with a bronze powder coating.

All plaques will have a design that matches the current plaques in the districts. The plaques will include the house name as it reads in the most recent historic documentation for the property. The year built will also be listed as it is found through the county tax records or the historic documentation for the property.

Plaques must be ordered through the Hickory Landmarks Society. The discounted price will be available as long as funds remain available and the supplier can guarantee the price. For more information, please contact the Hickory Landmarks Society at (828) 322-4731.

Historic Plaque Order form

Name: _____

Property Address: _____

Phone Number: _____

Email Address: _____

Note: City or Hickory Landmarks Society staff will call or email you to verify the information that will be contained on your plaque prior to placing the order
